

What is claimed as being new and desired to be protected by Letters Patent of the United States is as follows:

1. An apparatus for holding a paint can, comprising:
 - a sleeve for receiving a paint can; and
 - a glove sewn onto said sleeve.
2. The apparatus of claim 1, wherein said sleeve is elastic.
3. The apparatus of claim 1, further comprising a means for securing the sleeve around the paint can.
4. The apparatus of claim 3, wherein said securing means comprises at least one strap which surrounds said sleeve.
5. The apparatus of claim 4, further comprising a locking snap clip at one end of said strap and a female locking clip at the other end of said strap.
6. The apparatus of claim 1, further comprising a means to attach said apparatus to a user's

clothes.

7. The apparatus of claim 6, wherein said attachment means is a swivel safety clip attached to said glove.
8. The apparatus of claim 1, further comprising at least one strap attached vertically to said sleeve so as to add support to said sleeve.
9. The apparatus of claim 1, further comprising a pouch attached to said sleeve.
10. The apparatus of claim 9, wherein said pouch has at least one slot for receiving tools.
11. The apparatus of claim 1, further comprising a means for tightening said glove to a user's wrist.
12. The apparatus of claim 12, wherein said tightening means comprises at least one strap surrounding said glove near the wrist area of said glove for tightening said glove around a user's wrist.

13. An apparatus for holding a paint can, comprising:

a sleeve for receiving a paint can wherein said sleeve is elastic;

a glove sewn onto said sleeve;

a means for securing said sleeve to the paint can; and

a means for tightening said glove around a user's wrist.

14. The apparatus of claim 13, wherein said securing means comprises at least one strap which surrounds said sleeve.

15. The apparatus of claim 14, further comprising a locking snap clip at one end of said strap and a female locking clip at the other end of said strap.

17. The apparatus of claim 13, further comprising a swivel safety clip attached to said glove.

18. The apparatus of claim 13, further comprising at least one strap attached vertically to said sleeve so as to add support to said sleeve.

19. The apparatus of claim 13, wherein said tightening means comprises at least one strap surrounding said glove near the wrist area of said glove for tightening said glove around a user's wrist.

20. An apparatus for holding a paint can, comprising:

a sleeve for receiving a paint can wherein said sleeve is elastic;

a glove sewn onto said sleeve;

at least one strap which surrounds said sleeve;

a locking snap clip at one end of said strap;

a female locking clip at the other end of said strap;

a swivel safety clip attached to said glove;

at least one strap attached vertically to said sleeve so as to add support to said sleeve;

a pouch attached to said sleeve wherein said pouch has at least one slot for receiving tools; and

at least one strap surrounding said glove near the wrist area of said glove for tightening said glove around a user's wrist.
